The start of YEREYERE

YEREYERE is a fresh and innovative platform that celebrates the diversity of the electronic music scene. Founded in 2022, with its inaugural event held on September 16, 2022, YEREYERE was born from a close-knit team of creatives embarking on a collective journey of growth.

At the core of YEREYERE are our values: diversity, open-mindedness, an adventurous spirit, boundless creativity, and community building. Our mission is to foster a tight-knit and diverse community within the electronic music scene.

Our sound is Genrefluid, encompassing the wide spectrum of electronic music. We cherish artists' creative freedom, providing them with the space to explore without boundaries.

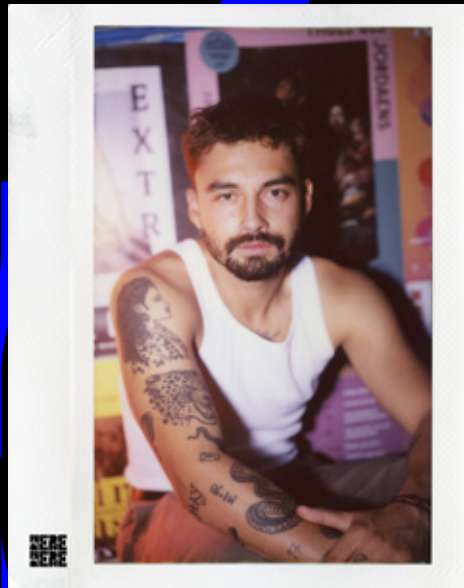

Inspired by the limitless possibilities of electronic music and fueled by our shared passion, YEREYERE is dedicated to continuously pushing the boundaries of creativity and diversity. Join us in our journey as we evolve and thrive together, shaping the future of electronic music culture.

What is YEREYERE?

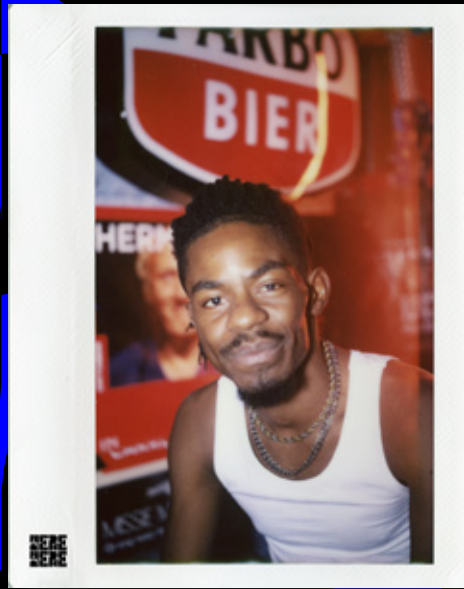

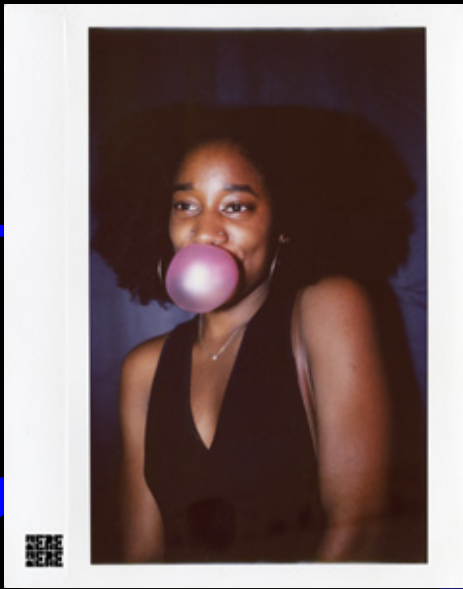

Yere Yere is a platform where independent artists, creatives, and entrepreneurs can showcase their work. We provide opportunities for emerging talent to grow in a safe environment and aid them in developing as artists.

Our community believes that artists deserve to be heard. Yere Yere means "listen" or "hear this" in Surinamese. We work with creative young talent to amplify their message and help them make careers out of their passions — not just for themselves but for their audience as well. Driven by passion, we want to build a community where we can grow together.
